

On August 16, Hansen's employees held a fundraiser to support Lahaina, Maui; which was devastated by wildfires. Our prayers go out to our Maui Ohana (family) and everyone affected by this catastrophic disaster.

Hawaii News Now: "On August 8, 2023, wildfires tore through parts of Maui, decimating entire communities and becoming the State's worst natural disaster. The blaze ripped through the entire historic town of Lahaina, killing more than 100 people and destroying thousands of structures."
